

## **ADDENDUM # 1**

This addendum forms a part of the original contract documents and modifies the original bid documents dated, February 8, 2007. The full scope of this document consists of 1 page. The following changes, additions, or deletions shall be made to the following documents; all other documents shall remain the same.

### **Item No. 1:**

Leadership in Energy & Environmental Design (LEED) techniques shall be incorporated into the design and construction of this structure. Contractor shall demonstrate use of a minimum of five LEED techniques via documentation, tracking, preconstruction, construction and closeout.

Contractor shall provide documentation of use of techniques and be able to demonstrate the cost efficiency and benefit to providing a LEED certification. Contractor shall complete LEED point system worksheet to demonstrate level of LEED certification this project will achieve.

Cost of instituting this addendum shall be listed as an add – alternate to your proposal.
