

AMENDMENT #1

Preview Problem Statement

"Design/Build"

Sponsored by Swinerton Incorporated

Due to the downturn in the economy, your privately held company who was planning to build an office building as part of a consolidation effort, has decided to CANCEL the project. Your astute marketing team has now provided you with an opportunity to submit a proposal for the following client.

Delete paragraph 1 of the original PROBLEM DESCRIPTION starting with "*A privately held company.....*" and ending with "*construction of the building as well.*"

Replace paragraph 1 of the original PROBLEM DESCRIPTION with the following new paragraph:

"A public university located in the Western US has requested a design/build proposal for the construction of a classroom building ranging in size from 50,000 sf to 100,000 sf. The challenge will be to develop a design of the classroom building to house all the functions required for several departments in one facility. The building must achieve LEED Gold or better certification and requires a significant amount of design innovation to meet the campus design standards currently under revision."

All other terms and conditions of the Preview Problem Statement will remain the same.
