Teams, the Owner is issuing Addendum #2 today at 2:00 PM in the Southern Pacific E&F room. This addendum requires explanation at the time it is distributed. Please have at least one representative at the meeting room at 2:00 PM today to receive this addendum and further instruction.

Relative to the forms in the RFP Division 1 document, be advised that you must submit form 00300 and supply the Design-Builders Cost information on the first page. Do not fill in the Developers Cost lines nor the license information lines on page 2. Ignore page three entirely. You have the other pages as a live Excel form already, and this must be completed. All subsequent forms, starting with 00310 and ending with 00496 should be ignored.

Thanks
