
PART 1 GENERAL**1.1 RELATED DOCUMENTS**

- A. Drawings and general provisions of the Contract, including General Conditions and Division 1 Specification Sections, apply to this Section.

1.2 SUMMARY

- A. This Section specifies procedural requirements for emergency response teams of Owner and Contractor.

1.3 SUBMITTALS

- A. The Contractor, upon award of Contract, shall prepare and submit to Architect complete proposed detailed plans and procedures for methods, actions, procedures and egress procedures to be taken in the event of a natural disaster such as a hurricane, or in the event of a construction related emergency including accidentally cut power and telecommunications lines.
1. Review and approval by the Architect or Owner of these plans and procedures does not relieve Contractor from being responsible for providing protection and safe egress for the Project and the public and personnel from natural disasters and construction related emergencies.
 2. The Contractor shall during the term of this Contract revise the plans and procedures regularly as the progression of construction affects protection from natural disasters and construction related emergencies and submit to Architect for review.
 3. Incorporate changes required by Owner and Architect into plans and procedures.
- B. Proposed Plans and Procedures shall as a minimum include the following to protect the Project, Contractor's personnel, the public and Owner's personnel.
1. List of names of key personnel, including the Superintendent, to be the Contractor's Emergency Response Team, their duties and responsibilities, their home addresses and telephone numbers, fax numbers and pager numbers where appropriate.
 2. Describe the methods, actions and procedures in detail to be taken in the event of a natural disaster such as a hurricane.
 3. Describe the methods, actions and procedures in detail to be taken in the event of a construction related emergency including accidentally cutting of power and telecommunications lines.
 4. Describe procedures, methods, construction, routes, graphics and lighting for egress in the event of such emergencies.
 5. Describe plans to contact local authorities having jurisdiction such as ambulances, fire departments, police and rescue squads.
 6. Indicate in plans where this information will be posted and how it will be kept updated as construction progresses.

1.4 OWNER'S EMERGENCY RESPONSE TEAM

- A. In the event of an emergency, the Contractor's Emergency Response Team shall act immediately and shall notify the Owner's Emergency Response Team. Coordinate with Owner for personnel and contact information.
