

ASC 2013 VIRTUAL DESIGN & CONSTRUCTION

Estimating (Introduction)

INTRODUCTION

Cost and productivity data for all concrete related activities is provided to your team by subcontractors who will be working on the One Rincon Hill project. For each activity, the consumption factor, waste factor, unit costs, and the appropriate units are provided. Some of this information will need to be used for the estimating problems issued at 1 PM and 5 PM.

Information Provided

1. Cost and productivity data for all concrete related activities issued at 8 AM.
File name: Cost and Productivity Data.xlsx

Deliverables
