UCI Design and Construction Services 200 Academy Way, Suite 200 Irvine, CA 92697

ATTN: Ucey R. Vine

RE: UCI Mesa Court Expansion HPCC Job No. 4014113 UCI Job No. 996296

Subject: Cost Proposal No.: 22

Dear Ucey,

We have investigated the cost and schedule effect for Change Estimate Number for the following extra work: Additional Design for Owner Provided Furniture We have reveiwed the scope of work and have verified that all extra work items are

22

\$251,201

The total estimated cost for this modification is

This Change Order Request is based solely on the usual cost elements such as labor, materials, normal markups, and does not include amounts for changes in the sequence of work, delays, disruptions, rescheduling, extended overhead, acceleration and/ or impact costs, and the right is expressly reserved to make claim for any and all of these and related items of cost prior to any final settlement of this contract.

If you should have any questions, please contact the undersigned at 949.207.6779.

Respectfully,

Hensel Phelps Construction Co.

Ralph Hamilton Project Manager

Re: UCI Mesa Court Expansion – Furniture Proposal Date: August 8, 2016

SCOPE, PROCESS AND DELIVERABLES

Introduction: The Mesa Court Expansion Project is located at 100 Mesa Road on the University of California Irvine campus. It includes approximately 760 new freshman beds within a total of approximately 250,000 sf of new student life space

The project is composed with 3 - six story residential towers sitting on a podium with amenities and community spaces. Below the level 1 is a lower floor which includes a loading dock, building services and a maintenance department.

Each residential tower includes a series of great rooms and study rooms .

The level 1 podium consists of a dining facility with over 750 indoor seats and 240 outdoor seats. Adjacent to the dining are a variety of community spaces including a recreation center, fitness center, computer lab, group study rooms, student leadership suite, a multipurpose room and a student services suite,

This proposal will outline the proposed work for selecting furniture, providing initial furniture pricing, updating furniture plans once actual products are selected, specifying furniture and incorporating existing furniture re-use wherever possible. Our process can be tailored to match the needs of UCI with regards to scope and tasks.

SCHEMATIC DESIGN

During Schematic Design, we will establish the initial design direction for furniture that will support the interior design concept and layouts

We will establish a furniture design deliverable package including concept images, direction on furniture palettes that are complimentary to the overall interior palette of the project and narratives to describe the overall schematic, We will also establish a furniture quality level. We will work with your team to confirm that this quality level is in line with the budget.

Presentation Meeting #1

Present introductory furniture images to facilitate design discussion, review preliminary furniture cut sheets, associated materials and budget to establish preliminary quality level

SEATTLE Pier 56 1201 Alaskan Way, #200 Seattle, WA 98101 T 206.623.3344

F 206.623.7005

SAN FRANCISCO 660 Market Street, #300 San Francisco, CA 94104

T 415.956.0688 F 415 956 1688

Schematic Design deliverables:

- Summary of furniture design Goals for key areas
- Design summary visual & narrative
 - A conceptual furniture palette incorporating existing furniture

mithun.com

мітнūм

- Update furniture plans
- Preliminary exterior furniture plan
- Summary of furniture quantities?
- Preliminary furniture budget review (budgeting by others)

DESIGN DEVELOPMENT

Working from the design concept and quality level established during Schematic Design, we will select furniture options.

We will provide finish and furniture data, generate a furniture cost schedule based on vendor supplied costs for early budget allowances.

We will generate more developed drawings for key areas; with furniture placement.

In key interior elevations, we will show furniture for review of 3dimensional qualities of selected pieces.

Meeting #2

Discuss and present preliminary cut sheets, furniture layouts , upholstery layouts and review of preliminary budgets.

Design Development deliverables:

- Preliminary furniture cut sheets.
- Upholstery options for community spaces and dining facility
- Upholstery options for residential lounges
- Preliminary furniture plan of interior and exterior seating areas to determine furniture quantities and character

CONTRACT DOCUMENTATION

Based on approved Design Development work, we will first refine and then provide the deliverables listed below. The University will receive a furniture control binder, which consists of a color copy of the product, wood finish sample, and upholstery sample. Our clients have found these binders helpful, not only during the construction process, but in subsequent years when reordering materials.

Upon completion of our work, we will provide product information to the University, such as warranty information which will supplement the final comprehensive design package.

Presentation Meeting #3

Discuss and present design relating to and including:

- Preliminary furniture specifications
- Updated Furniture plans
- Furniture budget review
- Furniture cut sheets,

Presentation Meeting #4

Refine and finalize design relating to final furniture package (based on selections from meeting #3), furniture plans, and approximate furniture allocation budget.

CD deliverables

- Final Furniture specification
- Final Furniture plan-keyed
- One sheet of design intent drawings as needed, and elevations of key walls in key spaces that indicate a furniture piece. The main purpose of these select elevations is to merely describe critical furniture piece(s) or furniture feature we want to make sure gets captured into the project, considering all the elements that need to be coordinated within a space.
- Two (2) Final Furniture Control Binders (that includes product information and finish samples whenever available)
- Warranty and cleaning manual for upholstery and finishes related to furniture.

FEE FOR DESIGN PHASE

The fee for Schematic Design, Design Development, and specification, is a fixed fee of \$ 135,500.

Reimbursable lump sum of \$20,000 for printing, travel, etc.

We recommend starting as soon as possible in order to maintain integration with the Construction Documents and maintain efficiency for our design team and UCI reviewers

FEE FOR CONSTRUCTION ADMINISTRATION— \$48,000

Reimbursable lump sum of \$10,000 for travel, printing etc during construction

Our services here include the monitoring the design intent during the furniture procurement and installation process. These tasks include:

- Review of all submittals for furniture and recreation room equipment
- Review of substitutions
- Re-selection of items not in stock or available
- Being present at installation for review and monitoring of sequential installation.

ASSUMPTIONS

- UCI to provide consistent decision making furniture team throughout this process.
- Estimating and budgeting by others
- Hensel Phelps to provide mock-up coordination and installation of residential furniture.
- Custom furniture design for residential TV equipment casework included.

- Recreation center equipment selection included ping pong, billiards, dart boards, shuffle board, foosball tables – limited to items listed above
- Purchasing and purchase orders by others.
- Marshalling, uncrating, assemblage and installation by others

ADDITIONAL SERVICES

The following services are not part of our Scope of Services but can be provided on an hourly fee basis when requested:

- Specification and documentation of lighting
- Art selection and specifications
- Signage design and specifications
- Additional presentation meetings beyond the above mentioned
- Additional packages /options
- Bidding Process
- Receiving, warehousing and installing furniture
- Furniture 'sit tests'/demo, beyond 5 key chairs (mentioned above)
- Specification and coordination of equipment (i.e. copiers, exercise equipment, video equipment etc.)
- Custom furniture or casework drawings (except noted above) and details other than design intent drawings (shop drawings to be completed by fabricators)such as mobile work pods
- Drawings/Construction Documents beyond furniture plans.
- Color boards for furniture elements.
- Renderings and additional graphics.

We are very excited to continue on this project and complete the design vision with the furniture. I look forward to further discussion with you. If you have any further questions, please feel free to call me.

Sincerely,

Elizabeth T. MacPherson, IIDA, ASID, LEED[®] Principal
