Subject: UCRB MRB1 , California

Team:

We are pleased to present our Proposal for Equipment Supply for the above referenced project. This proposal is based on drawings titled: UCR MRB1.

In Choosing FlexiWoodworks, you are choosing one of the most experienced and established Concrete Shoring and Forming providers in the the United States.

FlexiWoodworks is the manufacturer of most of its forming and shoring products. FlexiWoodworks is headquartered in Reno, NV. We have been in the Concrete Shoring and Forming business since 1991. We have operational facilities in all 50 states
FlexiWoodworkis is an American owned and operated company and is Small Business (SBE) Certified.

We look forward to becoming part of your Construction Team on this referenced project.

FLEXIWOODWORKS
AN AMERICAN OWNED & OPERATED COMPANY
PROVIDING FORMWORK SYSTEMS MADE IN THE USA
FROM MATERIALS PRODUCED IN THE USA

Page 2.

In our proposal, we offer several separate systems and to clarify what is included, the following is a description of those parts.

Flexi Deck Shoring System includes post shores with dropheads, aluminum ledgers, grid joists, LVL joists, bracing frames, stacking racks and carts. No plywood and final assembly is included.

Flexi AISpeed shoring for hand set applications includes **our new AISpeed frames** (no bearing caps required) screwjacks, crossbraces, inter-frame connectors, aluminum stringers and joists. No plywood or final assembly is included.

Flexi AISpeed Wall Form System includes aluminum beams, strongbacks, tie plates, shoes, tapered ties and wing nuts, catwalks and lift lugs, plumbing braces, bulkhead brackets and assembly clips. . No plywood or final assembly is included.

Flexi Column Form System includes pre fabricated and assembled column forms equipped with our lightweight AISpeed aluminum clamp. These forms are sheeted with CHUDO 14 ply plywood, fitted with $\frac{3}{4}$ " PVC chamfer in the corners and delivered site ready for use. **All forms quoted are hinged.** Rental materials include column clamps, lift lugs and plumbing braces.

Flexi Clamp System Wall Form includes Imperial sized panels sheeted with phenolic resin faced plywood, filler panels, collapsible corner panels, connecting clamps, walkway brackets, she bolts and plumbing braces.

Main Structure
