Attachments: MCC-Subcontracts Tracking Log.pdf

Jen,

I added a tracking log from Prolog of subcontracts to the folder and attached it here. We had Traxx perform the excavation, JLS for pumping (when MCC wasn't available), and used Catalina for ready mix. We subcontracted with Rebar Engineering through the GC for the rebar scope. I hope this helps. If not, feel free to give me a call.

Thanks,

Craig Babington
Project Engineer

Hi Craig –

Sorry I didn't get a chance to call you yesterday! Thanks for doing this. This is perfect – don't worry about the embed log – I think I can either grade it subjectively or eliminate it as a question completely. I will bring that up on our meeting on Friday.

One other thing – in regards to the concrete subcontract – I was actually looking for a LOG of subcontracts that were awarded under the concrete contract. Items would be similar to the following:

- Ready Mix Purchase Order
- Formwork PO
- Reinforcing Subcontract
- Crane PO

If you don't have this, no big deal – I can also grade that one subjectively. Let me know.

Thanks!
Jen

Jen,

Please see my comments in red below. I have created a folder under my answer key folder with your name in the ASC folder. I believe I have everything you need except for the embed tracking log. Please take a look at what I saved in the folder and let me know if you need anything else.

Thank you,

Craig Babington

Subject: ASC Answer Key

Hi Craig –

Just checking in to see if you actually have the following I could use as an “answer key” for the ASC comp:

- 1) Concrete submittal log **I didn't create a submittal log but I have a summary of all submittals saved in the folder.**
- 2) Concrete subcontract or buy out log **I saved the executed subcontract in the folder.**
- 3) Concrete 245 or 121 report **I saved last month's 121 report in the folder.**
- 4) Embed tracking log – **don't have one because there are very few embeds.**
- 5) Take-off of the metal panels on the project **I believe we have this somewhere and I should have it to you tomorrow when Ethan is back in the office.**

If you don't have them, no big deal – I'll either create one or just grade them subjectively.
