

Building a better future for our families, our communities, and our region – since 1900.

Graniterock is a California-based construction materials and contracting company. We are a family business, owned and operated by the same family since our founding in 1900. With its flagship quarry in Aromas, California, Graniterock is one of the Bay Area’s premier suppliers of high-quality aggregate, sand, concrete, recycled aggregate, hot mix asphalt and other building materials. The Company’s Construction Division is a leader in heavy civil infrastructure projects, known for executing high-quality paving, excavating, grading, partial depth recycling, concrete finish work and underground utility services. We proudly hold California Contractor’s License Number 22. The Company operates its own Transportation Division, including rail services, to deliver products to job sites across the state. Our 950+ team members enjoy a collaborative and personally rewarding workplace, where everyone’s ideas and contributions are welcomed and appreciated.

Graniterock thrives when our People thrive. We exist to provide a place where inspired People can do their best work.
