

BEGIN YOUR JOURNEY WITH SHIMMICK

We work together to tackle tough engineering problems and provide bold solutions for even the most complex projects. Here, you'll achieve great things that you can be proud of.

LEVEL UP YOUR SUMMER! SHIMMICK ENGINEERING INTERNSHIP

Spend 12 weeks advancing major infrastructure projects alongside industry innovators. **Receive in-depth field engineering experience**, skills coaching from veterans, high-impact professional development and adventure.

Ditch busy work. **Learn real skills**. Make professional connections. Compete in contests. Maneuver heavy equipment.

Enjoy happy hours, sports and outdoor fun with fellow rising engineers. **Gain leadership abilities and project management insight**.

Top performers receive return offers and full-time roles. Become part of our collaborative culture known for tackling complex feats.

Fast track your engineering career through hands-on experience, expert guidance and high-impact professional development opportunities. **Spend your summer contributing through meaningful work integrating solutions for critical water and infrastructure projects**.

shimmick.com/careers

“During my internship, I got better at communicating in words and in drawings. Another area that will help me in my career is all of the quantity tracking and claiming quantities. Seeing the numbers and learning the money side of the business was eye opening and will take me a while to fully understand, but the exposure I got during my internship was a good start.” - K. Wilson, Intern

APPLY TODAY!

DIRECTIONS:

Learn about current openings and apply today! All of Shimmick's open roles are posted on our Careers Site. Internship candidates may use the search term "intern" to see all open internship roles. Upcoming graduates should look for "Field Engineer I" or "Electrical Engineer I" titles.
