

## WHO WE ARE

The Newtron Group was founded in 1973 and is one of the largest privately-owned specialty electrical construction companies in the United States, and is among the leading industrial electrical and instrumentation providers in the nation.

## WHAT WE DO

We have completed work throughout the contiguous United States. Our projects range in size from small capital projects and maintenance contracts to multi-million-dollar grassroots projects. From concept to construction, our team proudly provides a wide array of services turn-key.

- Industrial Electrical & Instrumentation
- Residential & Commercial Electrical
- Industrial Mechanical
- Process Automation
- Advanced Analytical
- Electric Heat Trace
- Fabrication & Integration
- Communications, Networking & Security

## WHY WORK WITH US

We believe that employees are the key to our success. We work vigorously to maintain a culture of teamwork so we can effectively utilize latest technology and installation practices, providing our clients with the safest work environment and highest quality product.

### ✓ **EXPERIENCE**

With 50 years of performing projects across the United States, we have learned that the key to our success is our long-term, committed employees.

### ✓ **SAFETY**

Recognized as a leader within the industry, we focus on maintaining a culture where people are treated not just as employees, but as family. This makes safety personal for us.

### ✓ **QUALITY**

We always aim to meet or exceed our customers' expectations, ensuring that they receive the best products and services possible every step of the way.
