# A MESSAGE TO THE ASC STUDENT COMPETITORS:

The 39th Annual Associated Schools of Construction (ASC) Regions 6 & 7 Student Competition is host to the largest construction management student competition in the nation. This year over 1,800 students competing on 246 teams coming from 56 universities and 20 states are ready to compete. The 18 problem sponsoring companies have worked hard to provide all competing teams with a challenging and educational experience. Whenever possible, take the opportunity to thank them for their efforts and support of the ASC.

The competition aspect of our event must be fair. No student or team should have an unfair advantage. It is expected that your team is prepared, rehearsed, and that you have researched the industry for helpful information. However, in the event that you were professionally involved with or have specific knowledge of the actual problem issued by the sponsor that is beyond “public knowledge”, you must immediately notify your sponsor of a possible conflict of interest. Follow the rules, and remember only six team members can materially participate in the solution of the problem. There are no “runners” or individuals that may assist the team for any reason other than safety issues. For the entire duration of the competition, Thursday and Friday, there must be no contact with anyone that is not a member of your team (alternates, fellow students, industry, faculty, or coaches) until your team has presented. After presenting take time to thank everyone who helped you get to this point and assisted in your achievement.

Every detail of this year’s competition has been planned and organized to be a memorable and rewarding experience. The problem sponsors are ready, teams are ready, and the Nugget is ready to make this year’s competition a great event. Familiarize yourself with the hotel floor plan and locate your problem sponsor’s presentation room, study the event schedule, and do your part to contribute positively to your team’s effort and to the ASC.

You can find the list of times and locations for all of the week’s planned events inside this program. The Welcome Dinner begins at 6:00 p.m. in the Nugget Grand Ballroom. The competition kicks off with the Team Jump Start which begins Thursday morning at 5:00 AM in Nugget 1 and ends with a Job Fair and Awards Ceremonies on Saturday.

Be sure to identify and thank, whenever you have the opportunity, all of the sponsors that have generously supported these and the many other events happening this week. The sponsors and job fair participants are the ones that have provided the financial support to help make this event special and have partnered with the ASC to continue to enhance construction education. Your university construction programs have also invested in your success and their commitment to the ASC is reflected in your accomplishments.

Work hard, challenge yourself, and have fun!

Competition Code of Conduct

August 18, 2025

The ASC Regions 6 & 7 Student Competition is dedicated to fostering an environment of honesty, integrity, respect, and mutual responsibility for all participants, including students, faculty, industry representatives, and venue staff. Harassment or misconduct of any kind will not be tolerated.

**Participant Expectations:**

- Treat everyone with respect and consideration.
- Avoid demeaning, discriminatory, or harassing behavior and speech.
- Stay aware of your surroundings and report concerns to competition leadership.

**Prohibited Behaviors:**

- Sexual harassment or inappropriate physical contact.
- Discrimination based on race, gender, age, religion, or other personal characteristics.
- Abuse of power or position.

**Reporting Violations:**

If you witness or experience a violation, report it to the Competition Manager (labrown2@csuchico.edu). All reports will be handled with discretion and confidentiality.

**ASC's Commitment:**

ASC will investigate incidents thoroughly and reserves the right to remove violators from the competition.

This Code of Conduct ensures a safe, respectful, and productive competition environment.

**Acknowledgments**

The ASC Regions 6 & 7 Student Competition and Construction Management Conference would not be possible without the dedication and support of many individuals and organizations.

We would like to extend our deepest appreciation to our problem sponsors for their continued commitment to fostering the development of future construction management professionals. Your invaluable contributions of time, expertise, and resources help make this event an unparalleled educational experience for students across the country.

A special thanks to the faculty coaches and university staff for their dedication in preparing students to succeed, both in this competition and in their future careers. We would also like to recognize and thank the ASC Regions 6 & 7 Directors, the Competition Manager, and all staff and volunteers who work tirelessly behind the scenes to organize and execute this event. Your hard work and commitment are essential to the success of this competition.

Finally, we are grateful to the student participants for their enthusiasm, professionalism, and hard work. This competition exists to challenge and inspire you, and your continued involvement and dedication are what make this event thrive year after year.

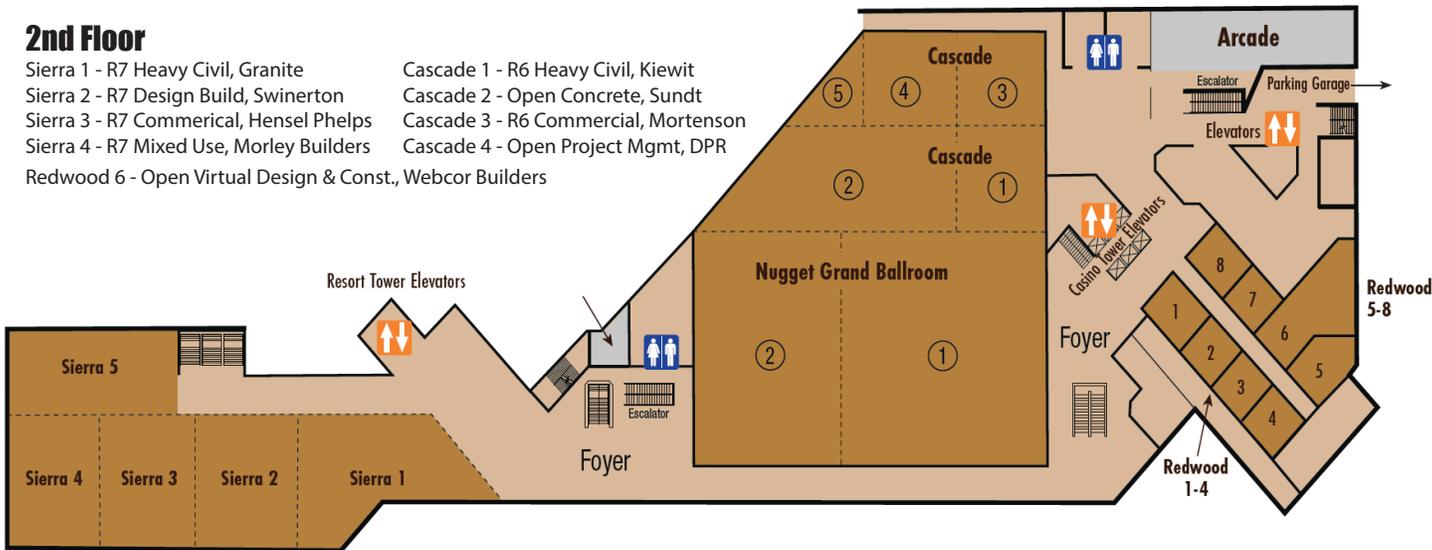

Thank you to everyone who has contributed to making the 2026 ASC Regions 6 & 7 Student Competition a success!

#### No Shortcuts, The Work That Builds a Life

A meaningful career isn't given; it's built through hard work, humility, and the willingness to take on challenges that others avoid. From enlisting in the Navy right out of high school, to earning engineering degrees, to leading construction teams around the world and commanding the Presidential Retreat at Camp David, and now serving as Vice President of Lehman-Roberts, A Granite Company, Jeremy's journey reflects a simple truth: where you start doesn't define where you can go, but how you work does. Through relatable stories and practical lessons, Jeremy encourages students to take pride in their first assignments, lead from every position, and earn a reputation worth betting on. This engaging keynote challenges emerging construction professionals to stay humble, stay hungry, and keep climbing.

**Jeremy Ramberg**  
Vice President  
Lehman-Roberts,  
A Granite Company

Jeremy Ramberg is the Vice President of Lehman-Roberts, A Granite Company, leading the people and operations who build and maintain critical infrastructure across the Mid-South. Jeremy's leadership journey began far from the executive office; he enlisted in the U.S. Navy right out of high school.

Over a 24-year career, he advanced from the lowest enlisted rank to Senior Naval Officer, leading construction and combat support missions around the world. His service culminated in becoming the Commanding Officer of the Presidential Retreat at Camp David, directing the team responsible for supporting the President of the United States. After retiring from the Navy, Jeremy brought his engineering and leadership expertise into the private sector. He holds bachelor's and master's degrees in civil engineering and is a licensed Professional Engineer.

Outside of work, Jeremy serves as a volunteer firefighter and enjoys life on a hobby farm in West Tennessee with his wife, Allison, and their daughter, Danica. Whether on a jobsite, responding to a fire call, or helping on the farm, he believes great careers and great lives are built from the ground up through humility, hard work, and service to others.

	2:00 PM	2:30 PM	Redwood 2	2nd	Bulk Exchange
Paul Foley, CEO Bulk Exchange	<p><b>Empowering the Next Generation and Why It Matters</b></p> <p>The next generation isn't just the future of construction—it's an untapped competitive advantage. As workforce gaps grow, the industry often overlooks students' strongest asset: digital fluency. Trade enrollment is rising rapidly, and young people are ready to contribute from day one.</p> <p>This session explores how technology bridges the gap between classroom and jobsite, showing how students skilled in tools like Bulk Exchange can deliver immediate value. Learn how education can better align with contractor needs and how students can become force multipliers—not just labor, but value creators who help the industry build smarter.</p>				
	2:00 PM	2:30 PM	Sierra 5	2nd	
Thomas Kommer Cal Poly, SLO	<p><b>The Creation and Subsequent Success of Developing a Construction Risk Identification and Analysis Course for Undergraduates</b></p> <p>This presentation highlights a course designed to address a common gap in Construction Management education: understanding business and performance risk beyond jobsite safety. The course focuses on comprehensive risk management; identifying, analyzing, quantifying, and managing uncertainties throughout the construction process using industry tools. Students develop the ability to assess stakeholder risk tolerance, evaluate risks and opportunities, and manage risk across all project phases, better preparing them for professional success.</p>				
	2:30 PM	3:00 PM	Sierra 5	2nd	
Christopher Beuret Colorado State Univ.	<p><b>Raising the Bar in MEP Engagement and Comprehension</b></p> <p>This presentation highlights a reimagined approach to teaching MEP systems that moves beyond lectures and component memorization to true system understanding. Through a hands on, industry partnered course, students actively work with real building systems, removing the fear and mystery around MEP while building confidence, problem solving skills, and engagement. Attendees will leave with practical strategies for using experiential learning and industry collaboration to better prepare future project managers.</p>

Case studies are short papers about real world issues and present dilemmas for students to discuss and address.</p> <p>To support CM educators, the AGC Education and Research Foundation has been producing construction case studies that provide CM faculty with applied examples to strengthen the link between theory and application in the classroom. The AGC case studies are written by faculty-contractor teams and are based on actual industry projects, for students to work through requiring critical thinking and problem-solving. They include · Real World Scenarios, · Supporting Data and Documents, and · Open-Ended Issues to address.</p>				
	<p>This session will describe the AGC case study platform, describe how it can be accessed, and solicit suggestions from CM faculty regarding topics for future AGC case study development.</p>

## FACULTY & INDUSTRY DINNER - NUGGET BALLROOM 1

THURSDAY 6:30 PM - 8:00 PM

Thank you to our Faculty & Industry Dinner Sponsor!

### Evening Host

#### Paul Foley, CEO and Co-Founder of Bulk Exchange

Born to an excavation contractor on a small farm in the west of Ireland, Paul Foley grew up immersed in the heavy civil construction industry, guided by the values of hard work, resilience, and integrity. After completing a degree in Construction Economics and Building Management, his career expanded across Europe, Australia, and the United States. Years of contracting work provided a deep understanding of the industry and exposed significant inefficiencies—particularly in how contractors sourced materials, compared options, and secured deals. Despite technological advancements elsewhere, the heavy civil materials sector continued to operate much as it had half a century earlier

**Paul Foley**

Bulk Exchange

Bulk Exchange was established in 2020 to transform that reality. BX is designed to modernize and streamline the way contractors and suppliers connect. As the saying goes, “The only way to predict the future is to create it.”

### Keynote Speakers

#### Rachael Mahoney, CSO and Head of Partnerships

Rachael Mahoney is the Chief Strategy Officer and Head of Partnerships at Bulk Exchange, where she is building the connective infrastructure of construction technology, aligning contractors, suppliers, data, fintech, and AI into one intelligent, workflow-driven ecosystem. Rooted in generations of builders, Rachael grew up in Alaska, where her family is still constructing critical infrastructure and vibrant communities across the state. That foundation instilled in her a deep respect for the people, processes, and perseverance that define heavy construction

CSO & Head of  
Partnerships  
Bulk Exchange

Today, in addition to her leadership role at Bulk Exchange, she is also the co-owner of a large regional commercial general contracting firm on the East Coast, giving her a unique perspective that bridges field experience with strategic innovation. Beyond speed and reliability, Bulk Exchange is building the data layer for smarter procurement, including environmental transparency through EPD-enabled materials and impact-aware sourcing. The result is a modern, trusted hub for bulk materials that reduces friction for both buyers and suppliers while pushing the industry toward cleaner, more accountable supply chains.

### About Bulk Exchange

Bulk Exchange is an intelligent marketplace that helps heavy civil and commercial construction teams move from sourcing to quote faster and with far more clarity. We connect contractors and estimators directly to vetted bulk materials suppliers, inventory, and logistics options so pricing and availability show up when decisions are being made, not days later.

Beyond speed and reliability, Bulk Exchange is building the data layer for smarter procurement, including environmental transparency through EPD-enabled materials and impact-aware sourcing. The result is a modern, trusted hub for bulk materials that reduces friction for both buyers and suppliers while pushing the industry toward cleaner, more accountable supply chains.
